SPEED PRO BROADHEADS

At 55 grains the Speed Pro Broadhead is the lightest fixed Broadhead currently available. It is easier to tune for perfect arrow flight. With a 1" cut, a shorter all aluminum ferrell and chisel point, the Speed Pro Broadhead cuts on impact and penetrates like a 100 grain Broadhead. Penetration through flesh and bone is improved because of the greater arrow speed, less arrow flex and less resistance as the arrow passes through the animal. The Speed Pro Broadhead shoots and has the accuracy of a field point at all yardages.

WORDS FROM OUR PRESIDENT

30 YEARS OF SPEED...30 YEARS OF INNOVATION...30 YEARS OF MAKING DREAMS COME TRUE!

THERE IS A BUZZ OF EXCITEMENT AT HCA AS WE ENTER IN TO OUR 30TH YEAR OF BUSINESS AND ANTICIPATE THE UNVEILING OF THE 2011 PRODUCT LINE. EVERY WHERE YOU LOOK, IN EVERY DEPARTMENT, EVERYONE IS DILIGENTLY WORKING AS THE DREAMS, HARD WORK AND HOURS OF PREPARATION UNFOLD. HERE AT HIGH COUNTRY, NOT ONLY ARE WE EXCITED ABOUT WHERE WE ARE GOING WITH THE NEW HCA, BUT WE ARE ESPECIALLY PROUD OF WHERE WE HAVE COME IN THE LAST 30 YEARS OF BUSINESS.

SINCE I PURCHASED THE COMPANY IN OCTOBER 2009, I HAVE A GREAT RESPECT FOR ALL THE ACCOMPLISHMENTS AND ACHIEVEMENTS THAT HCA HAS HAD OVER THE YEARS AND IT PROPELS ME TO PRESS FORWARD IN DESIGNING, PRODUCING AND PROVIDING THE BEST PRODUCT AND SERVICE AVAILABLE.

Do You REMEBER?

REMEMBER WHEN...THE COMPANY FIRST STARTED AND HOW THE PASSION PROPELLED EVERY EMPLOYEE, EVERY DEALER AND EVERY SHOOTER. LOOK AT ALL THE PEOPLE WHOSE FIRST EXPERIENCE WITH HIGH COUNTRY BECAME ONE OF THEIR MOST VALUED MOMENTS IN ARCHERY. REMEMBER THE TEAM AND SENSE OF CAMARADERIE THAT ANYONE COULDN'T HELP BUT WANT TO BE A PART OF AS THEY EXPERIENCED THE PASSION THAT THE HCA PRO TEAM BESTOWED AS THEY SWEEPED THE PRO CIRCUIT.

REMEMBER THE DREAMS...DREAMS OF A YOUNG MAN WHO HARVESTED THAT FIRST TROPHY, WON THAT FIRST 3D SHOOT AND GREW INTO THE MAN THAT MADE HIS FATHER PROUD.

REMEMBER WHEN? THE TRADITION CONTINUES... EXPERIENCE THE NEW HCA!
